Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

1. Applicant's election of the species including the reinforcing cord layer arranged along an inside of the carcass turnup portion, claims 1-7 and 9-12 in Paper No. 5 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claim 8 is withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made without traverse in Paper No. 5 (see paragraph 1 above).

### *Priority*

3. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### *Claim Rejections - 35 USC § 112*

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claims 1-7 and 9-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

To provide proper antecedent basis and to eliminate the vague "corresponding" language applicant should make the following amendments to the claims.

#### claim 1

line 7, change "one or more reinforcing cord layers" to -- a reinforcing cord layer -- (this does not exclude the presence of more than one reinforcing cord layer).

Art Unit 1733

claims 2 and 3

line 3, change "corresponding" to -- equal -- .

claim 7

line 2, change "corresponding" to -- equal -- .

*Claim Rejections - 35 USC § 102*

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1-5, 7, 9, and 10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Boileau (3,904,463).

*Claim Rejections - 35 USC § 103*

8. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

9. Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Boileau (3,904,463).

See paragraph 7 above: it would have been obvious to one of ordinary skill in the art to provide such notoriously well known bead filler hardness in the Boileau tire.

10. Claims 11 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Boileau (3,904,463) in view of European Patent Application 0 715 977 A2.

See paragraph 7 above: it is conventional to provide such a reinforcing sheet rubber in tires, as evidenced by EP '977 (p. 4 lines 5-22) for example; it would therefore have been obvious to provide such a conventional reinforcing sheet rubber in the Boileau tire.

*Conclusion*

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. French Patent 2 055 988 and Delias et al. (5,529,104) cited by applicant anticipate or render obvious at least claim 1 but are considered to be no more pertinent than Boileau against the instant claims.
